

How to create a setup your IDSC account

The IDSC account is used to access the test UAT test environment for viewing and submitting any EPSDT test visit data for the fillable PDF and the EPSDT 8015/8016 online.

You can [click here](#) to watch a short video of the steps below.

Step 1:

Login to your MailTrap account.

[Click here](#) to go to MailTrap login screen.

mailtrap

Log In Sign Up

Log In

Use Google account

Use Github account

Use Office 365 account

Haven't received the confirmation email yet? [Resend the email](#)

Mailtrap renders emails in the same way browsers do, meaning that no additional stylesheet or CSS reset is applied.

Step 2:

Click on Inboxes and then your name.

mailtrap

Inboxes

Projects

Inboxes

Inboxes	Total Sent	Messages	Max size	Last message	Action
My Inbox	0	0 / 0	50	Empty	

My Inboxes

Inboxes	Project Name	Messages	Max size	Last message	Action
Eric Manongdo	EPSDT Project	0 / 0	800	Empty	

Regarding SSL error while trying to send emails to Mailtrap

You are not alone. Please update your OpenSSL version

You might hear about the global issue with Letsencrypt certificates: its old root certificate expired on Sep 30. Mostly it impacted clients who use OpenSSL versions prior 1.1.0.

Mailtrap itself was ready for that change. But as it's a client-facing problem you should check for the best way how to fix it yourself, even we'd like to help each of you.

The most common solution is to update your OpenSSL. If you can't do that read [the recipe for v.1.0.2 from OpenSSL](#).

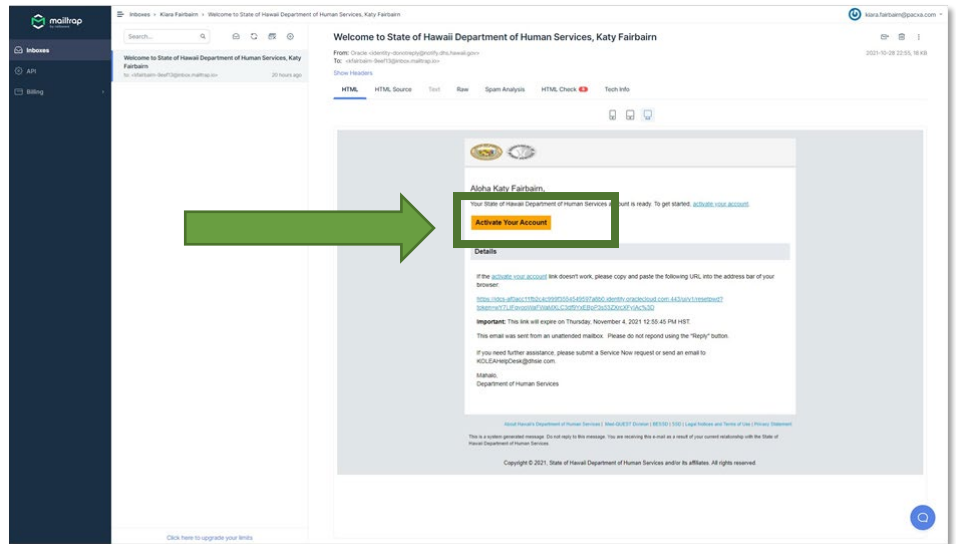

Yours Mailtrap Team

How to create a setup your IDSC account

Step 3:

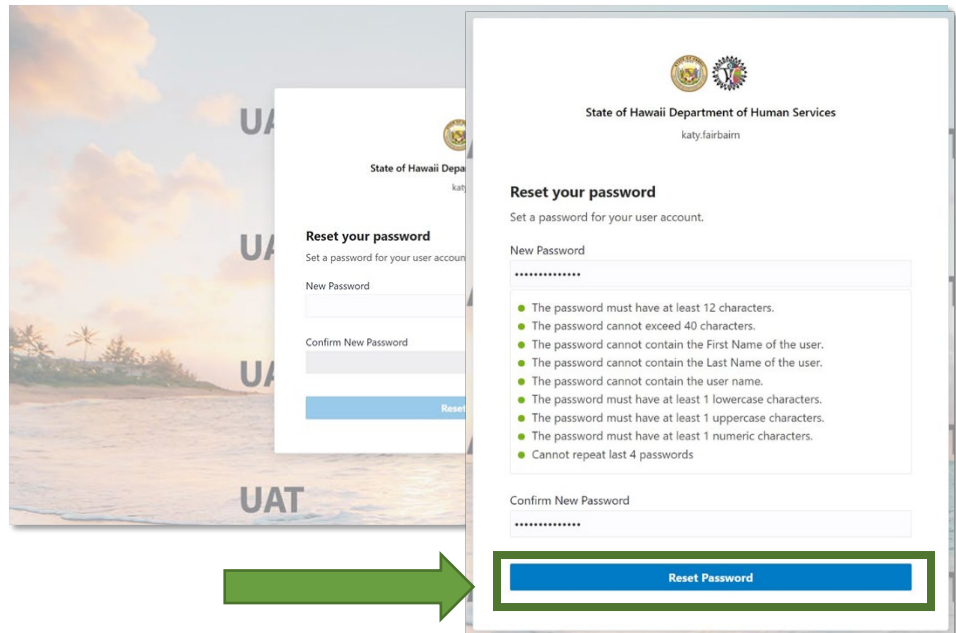

You will receive this email giving you instructions on how to activate your account. Click on the *Activate Your Account* button.

Step 4:

Here is where you will setup your password. Passwords must be 12 characters in length. Make sure you remember your password.

Once you are done, click on the *Reset Password* bar in blue.

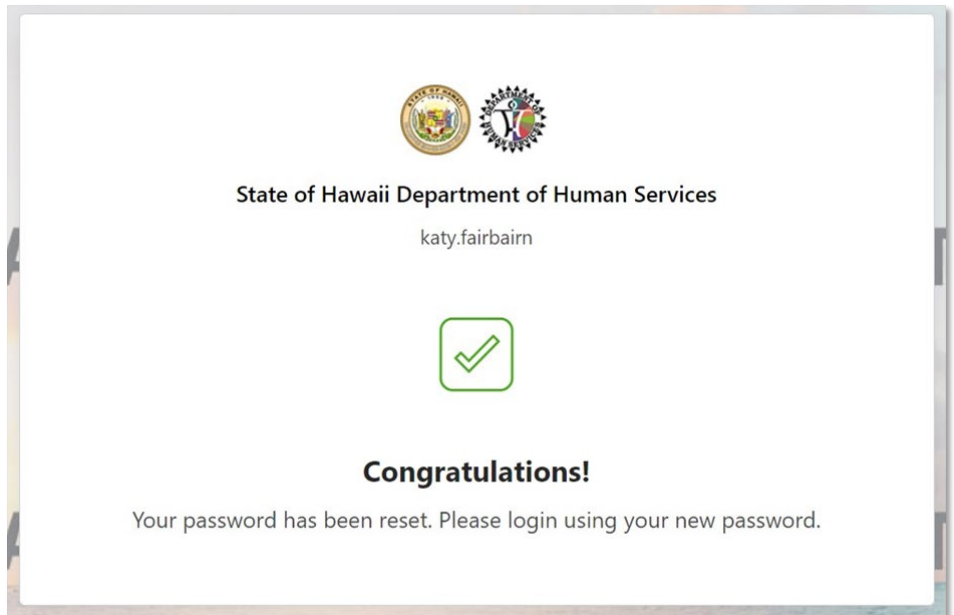

Step 5:

If password setup is successful, you will see this screen.

Next, return to *MailTrap*.

Step 6:

Once you return back to MailTrap you will see a confirmation email acknowledging your password has been setup for IDCS.
