

## Communication #2 – Benefits of NEW Online Forms

Allow us to introduce the new online 8015 and 8016 forms. Providers and their staff can complete forms by logging into the portal to enter and submit EPSDT visit data. Some benefits with the new online form include:

- Easy steps to complete rather than handwriting on paper forms.
- A guided experience to easily navigate to the next or previous steps.
- Use the navigation to move between the sections of the form.
- Enter information, verify, confirm, and submit within minutes.
- No need to send it in the mail!
- Have claims processed and paid faster.

The goal of going paperless is to reduce unnecessary provider burden, improve the quality of data collected and inform how we serve our communities. MQD and QUEST Integration health plans will **no longer accept** the Red 8015 or 8016 Forms after December 31, 2021.

MQD is committed to keeping you informed as we prepare to go paperless! Training resources will be available on the [Med-QUEST website](#) as we approach this transition.

If you have any questions, please email [EPSDT@dhs.hawaii.gov](mailto:EPSDT@dhs.hawaii.gov)
