GENERAL INSTRUCTIONS

All sections for the appropriate age and program type must be answered.

When conducting the HFA for LTSS members, it is required to obtain and record current vital signs.

Service Coordinators are expected to prepare for all visits using additional available resources (e.g. claims data, medication history, utilization history, etc.) and telephonic responses to expedite the assessment process and make the most of the member’s time.

Completion of the assessment is required to include a face to face interview with the member.

When conducting re-assessments, if there are no changes from the most previous assessment, check “No Change From Previous Assessment”.

In accordance with the Home and Community Based final rule issued in January 2014, the following must be included in the planning process:
1. Provide necessary information and support in order to enable the member to make informed choices, including providing choices regarding services and supports and who provides those services.
2. Ensure that the member directs the planning process to the maximum extent possible.
3. Ensure that the planning process reflects cultural considerations of the member.
4. Ensure that the planning process is conducted in plain language and in a manner that is accessible to members with disabilities and interpreted into the member’s primary language for those with limited English proficiency.
5. Ensure that the member understands how to request updates to the plan as needed.
