MEMORANDUM

MEMO NO.
QI-2605 [Replaces QI-2125]

TO: QUEST Integration (QI) Health Plans
Home Health Agencies
Home Care Agency Providers of Home and Community Based Services
1915(c) Intellectual and Developmental Disabilities (DDD) Waiver Providers

FROM: Meredith Nichols *mn*
Acting Med-QUEST Division Administrator

SUBJECT: ELECTRONIC VISIT VERIFICATION (EVV) SERVICE CODES AND MODIFIERS
(REPLACEMENT)

This memorandum integrates and replaces provider memo QI-2125 dated September 4, 2021.

The purpose of this memo is to inform our health plans and providers of Home Health Agency (HHA) services, Personal Care Services (PCS) and DDD providers about the additions, modifications, and the removal of EVV-related service code and modifier combination requirements.

- 1) All current HHA & PCS services will continue to be available as EVV authorizations.
- 2) DDD related service codes/modifiers have been updated. Some codes and modifiers have ended on June 30, 2025, and some will end on June 30, 2026.

- 3) Beginning in July 2025, the DDD EVV service codes and modifiers in Appendix A have been updated with each participant's ISP plan year renewal. Old codes have been phased out and new codes have been phased in.
- 4) On May 14, 2025, DDD issued Transmittal Memorandum No. FY2025-05 with the new code and modifier combinations.
- 5) Five new PCS service code and modifier combinations will be added to the existing EVV services, and are highlighted in yellow on Appendix A. These new visit codes were created for and should only be utilized by agencies providing their services through the neighborhood model of care (e.g. Vivia Cares), and the new service codes will be available in the 4th quarter of 2025.
- 6) Three (3) Home Health service code/modifiers are being removed from EVV (S9131, S9128, and S9129) as indicated by using the strikeout on Appendix A.

A complete list of EVV related service codes and modifiers is in Appendix A.

- All EVV services must use the EVV related service codes and modifiers in sequence.
- All authorizations for EVV services must use the EVV related service codes and modifiers.
- Providers must use Appendix A service codes and modifiers when submitting claims.
- A claim for EVV services must be verified against an EVV visit in the Sandata Aggregator, before the claims are paid.
