

Dear Medicaid Member,

The Med-QUEST Division wants to make sure you that when you or family member needs care in your home, you receive the care you need to experience better health. You're invited to an informative update on Electronic Visit Verifications (EVV), which monitors the care you receive using technology to document when a home visit begins and ends.

You're invited to learn more about EVV at an upcoming Public Townhall Meeting. This is open to the public and anyone potentially impacted by EVV. We'll provide the latest updates and give you opportunities to ask questions about EVV. Mark your calendar!

What: EVV Public Town Hall Meeting
