

Med-QUEST presents:

ELECTRONIC VISIT VERIFICATION

Key Performance Indicators (KPI)
2022 Q1

Key Performance Indicators (KPIs)

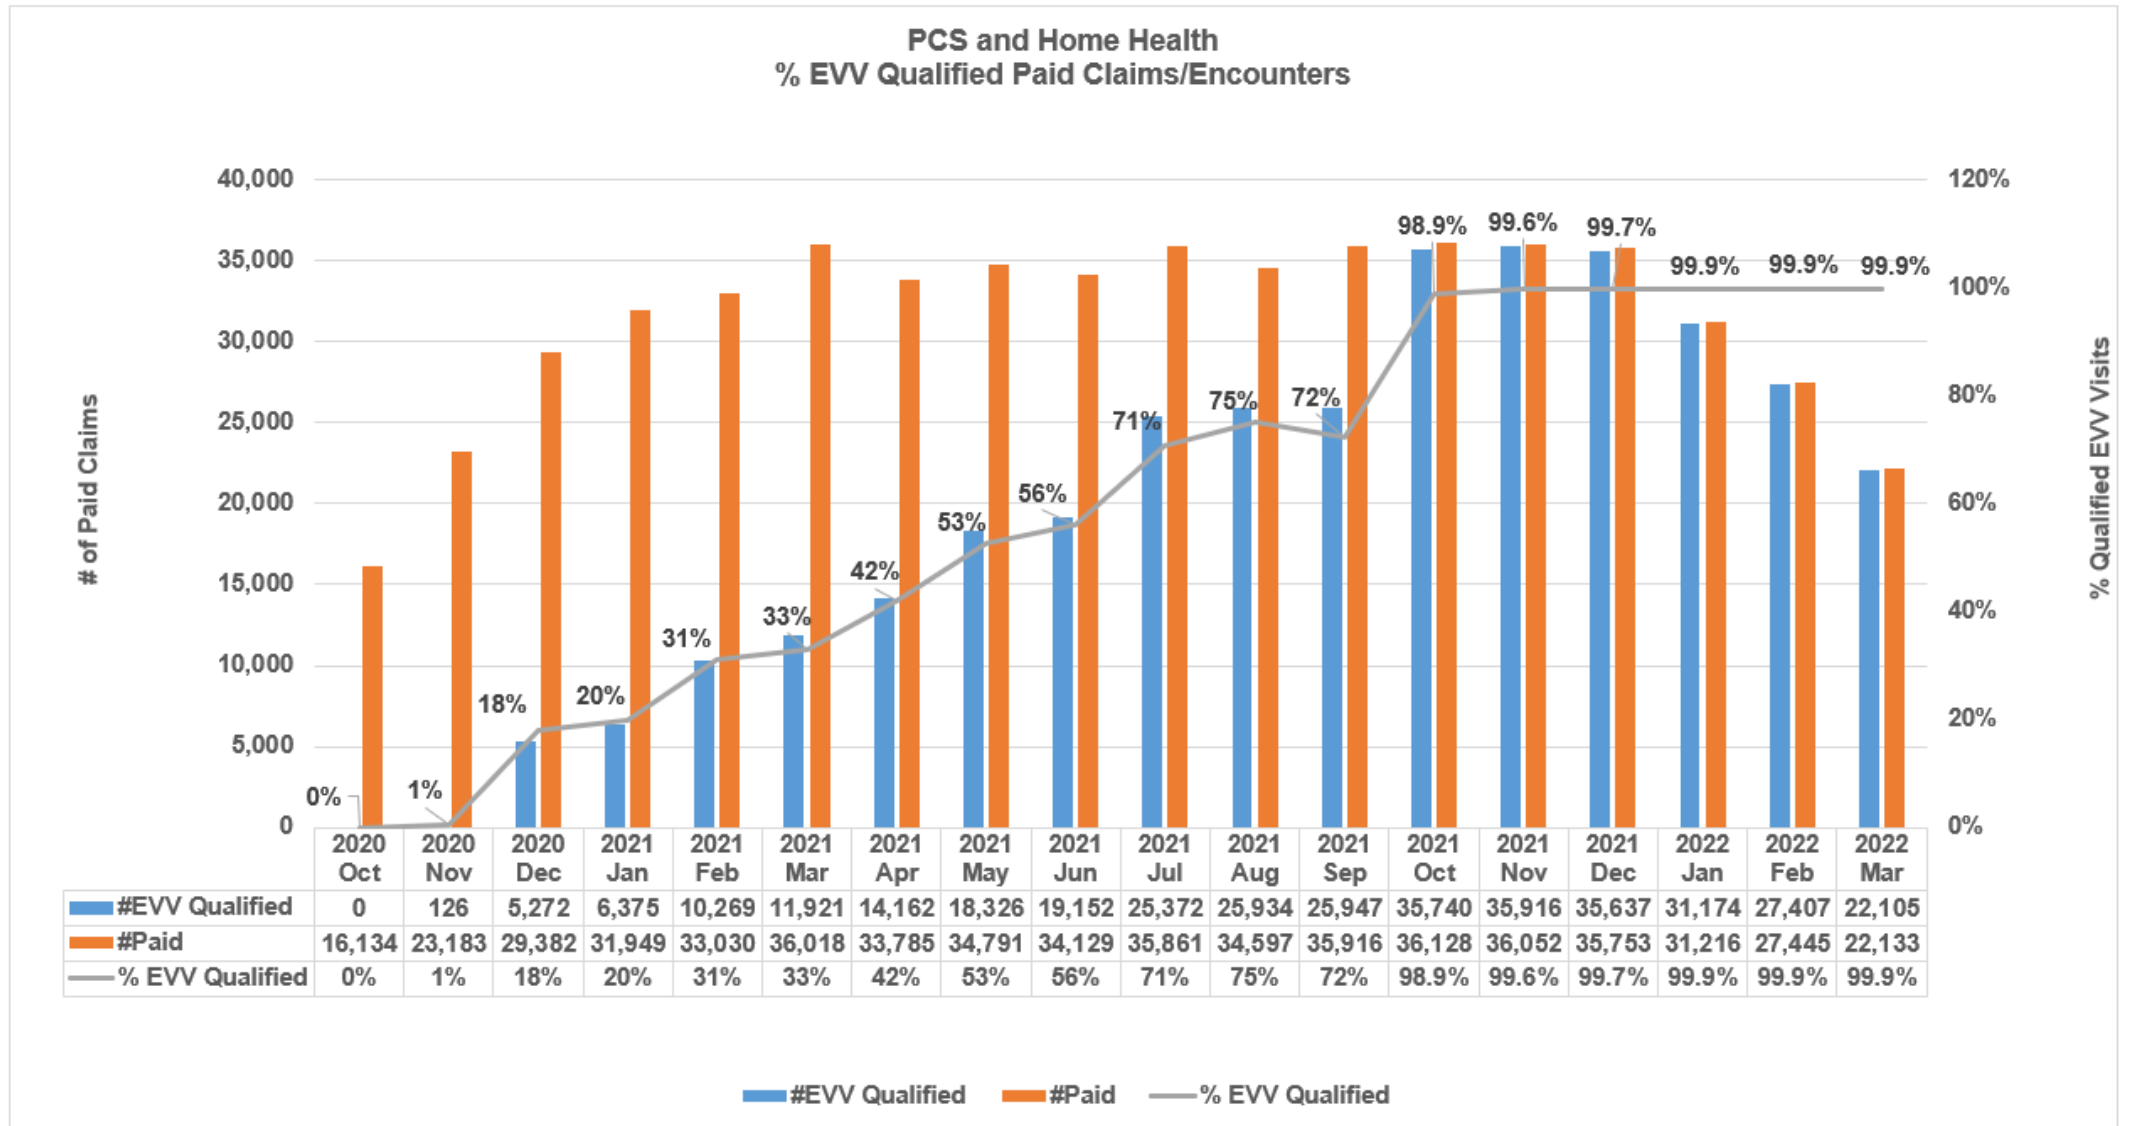

KPI 1 - Association of EVV Record to Claim/Encounter

- ▶ To Ensure That Claims And Encounters Are Not Being Paid For Unverified Visits
- ▶ Results Table
 - ▶ The number of paid claims/encounters (visits) using an EVV solution and captured as a qualified event, as a percentage of total paid claims/encounters (visits) for PCS and Home Health in the period
 - ▶ Hawaii Hard Edit turned on for DOS 10/1/21 and beyond
 - ▶ The data includes PCS and Home Health claims/encounters
- ▶ (State) Data Exceptions:
 - ▶ Self-directed services use the state supplied EVV solution to capture time
 - ▶ The MCO payroll processes use the EVV time to generate payroll
 - ▶ There are no claims or encounters generated for the self-directed population. However, Hawaii is in the process of generating encounters for this population

KPI 1 - Association of EVV Record to Claim/Encounter*

*As of: 12/10/21

KPI 2- EVV Record Match Against Approved Services, Providers, and Units

- ▶ To Ensure Linkage Between Authorized Provider, Service, Units And Beneficiary For Home Visits
- ▶ Results Table
 - ▶ The number of paid claims/encounters (visits) that were verified against authorizations for the provider, client, services and units in MMIS/MCO system prior to payment, as a percentage of the total paid claims/encounters (visits) for PCS and Home Health in the period.
- ▶ (State) Data Exceptions
 - ▶ Self-directed services use the state supplied EVV solution to capture time. The MCO payroll processes use the EVV time to generate payroll.
 - ▶ There are no claims or encounters generated for the self-directed population. However, Hawaii is in the process of generating encounters for this population.
 - ▶ While Self-Directed is not counted, for the self-direct population to generate a verified visit an active authorization is required.
- ▶ **No EVV services are paid without an authorization**
- ▶ The data includes PCS & Home Health claims/encounters

KPI 2- EVV Record Match Against Approved Services, Providers, and Units

*As of: 12/10/21

KPI 3- EVV Records Without Manual Edits

- ▶ To Reduce Incidence of Manually Entered or Edited EVV Records
 - ▶ Results Table
 - ▶ The number of visits that were verified without manual edits against the total number of visits, as a percentage for PCS and Home Health in the period.
 - ▶ (State) Data Exceptions
 - ▶ None associated with this KPI
 - ▶ Verified visits only include a status of Verified, Approved, or Processed

KPI 3- EVV Records Without Manual Edits

PCS and Home Health Percentage of EVV Qualified visits with No Manual Edits

*As of: 12/10/21

KPI 4- EVV System Availability

► To Ensure The EVV System Has A High Availability

KPI 5 - Privacy and Security

- ▶ **To Ensure The State Is Managing Privacy and Security Risks**
 - HITRUST Re-Certification - September 30, 2020
 - Sandata Annual Penetration Testing - May 2021
 - No High or Very High risks for 2020-2021
 - HITRUST Interim assessment dated October 13, 2021
 - **Future Audits**
 - Q1 2022 SOC2 Type 2
 - Q2 2022 HITRUST Re-Certification - moving up annually from Q3
 - Q2 Annual Penetration Testing
