Health Management Associates
presents

Streamlining SBIRT into EHR Workflows

A Live, Interactive Webinar

October 25, 2023

11:00am – 12:00pm Hawai'i

Substance misuse and overdose deaths are increasing in Hawai'i. To better identify substance misuse early, prevent worsening, and provide interventions and treatment, **Med-QUEST**, along with our partner Health Management Associates, is providing an **online interactive session on Screening, Brief Intervention, and Referral to Treatment (SBIRT)**. SBIRT is an evidence-based practice that is reimbursable.

SBIRT is a valuable practice which can be integrated into your EHR workflows. This webinar will explain the key concepts behind how to approach the integration of SBIRT into your EHR and the key staff members to engage to help initiate and sustain this practice.

Target audience: Social workers, Nurses, Physicians, PAs, NPs, Billing and Coding departments, counselors, SUD clinicians

Content level: Beginner

About the instructor

Lisa M. Harrison is an Associate Principal with Health Management Associates and a physician assistant with over 20 years practice experience in both the ambulatory and inpatient clinical settings. She is also a clinical informaticist with expertise in the design, build, implementation, and optimization of electronic health record systems where she has worked with other IT professionals to bridge the communication between those who build the systems and those who use the systems in caring for patients. Lisa has worked with multiple clients to help implement and optimize SBIRT practice into their daily workflows and has helped facilitate the redesign of numerous EHR systems to accommodate SBIRT practices.

Learning objectives

After attending this course, participants will be able to...

- Discuss the importance of integrating SBIRT into EHR workflows
- Identify key staff members to include in an EHR SBIRT implementation
- Identify options for how to integrate SBIRT into EHR systems

Course outline/Agenda
