Line items with "(per 100 members)" means the item is based on every 100 members on an annualized basis. This enables health plans of different sizes to be compared and to compare different time periods (by annualizing). An example would be "8 members with ED visit per hundred members". This means that for every 100 members, 8 members visited ED every year. So, a health plan with 100,000 members would have 8,000 ED visits.
