*33 = F	*53 = L	*72 = R	*92 = X	*16 = _ (space)
				*17 = * (asterisk)

> Tips for Using the System

- You must call from a Touch-Tone phone with Touch-Tone dialing enabled.
- Once you are familiar with the AVRS, you can key ahead in response to most prompts. You need not wait until the prompt has been completely spoken to press a key or enter your response.
- You have two chances to enter valid data in response to a prompt. If you enter an invalid data more than twice, your call will be terminated. In this instance, hang up and try your call again.
- Press **7 to repeat the current prompt.
